## **DETAILED ACTION**

Applicant's election with traverse of Group I, Specie V (claims 1, 5-15, 18-19, 22-25, and 27) in the reply filed on 09/10/04 is acknowledged. The traversal is on the ground(s) that the searches for Group II and I would be co-extensive. This is not found persuasive because the method claims would be classified in a different class than Group I (claims 1-25, and 37).

Examiner would have further a restriction requirement following as below:

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 5-15, 18-19, and 22-25, drawn to a circuit board and a system, classified in class 361, subclass 766.
  - II. Claim 37, drawn to a circuit board, classified in class 361, subclass 306.3. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of

operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In

the instant case the different inventions of the Invention II can be utilized such as

storage power energy module, for example, battery, and the Invention I can be utilized

such as a high frequency component.

2. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
